## **NEW BUSINESS**

A/ Request for Extension of Time Brooks Townhouses, LLC

Chairman Kelman requested that the applicant come forward.

William Robertson, Esq. of the law firm of DiFrancesco, Bateman came forward to make the request on behalf of his client Brooks Townhouses. He noted that his client is requesting an extension of the Preliminary and Final Site Plan approval originally granted in April of 2010. He noted that they appeared before the Board last year to request the first extension permitted, pursuant to N.J.S.A. 40:55D-52. He stated that the application was tolled by the permanent extension act from 2010 through June 30, 2016. He stated that the Board granted a one-year extension which expires June 30, 2017. He stated that since that time, the applicant has retained his experts to continue the project, but has determined that there were permits that expired in the interim period. He stated that the applicant is in the process of seeking an extension and renewal of permits for sewer extension and a renewal of the New Jersey American Water application. Mr. Robertson stated that his client is also seeking to reaffirm the wetlands delineation with the DEP. He stated that his client has every intention of proceeding with this project once all the permits have been completed. He stated that the permits should take about 90-100 days to be issued, and the applicant will begin moving forward at that time. He stated that the applicant's Engineer, Richard Brown is also here, as well as the applicant if the Board has any questions.

Chairman Kelman asked if the applicant anticipates beginning construction within the one-year extension.

Mr. Robertson stated that the applicant will begin construction before the one-year extension expires.

Attorney Corsini stated he sees no legal issues, and the standard is under subsection D of the statute as cited by Mr. Robertson. He stated that the issue that permits are outstanding is what the statute intended to allow extension. He suggested the Board ask questions if they have concerns, however, this situation is contemplated under the statute.

When no Board members had questions regarding the extension, nor wished to hear testimony from witnesses, Chairman Kelman requested a motion to either approve or deny the extension of time request.

Jim Powers, seconded by Ted Camacho, made a motion to approve the extension of time.
